

PALLETS MANURACK FOR STORAGE AND TRANSPORT [MOBILE, FLEXIBLE PALLET STILLAGES STORAGE SYSTEM]

RUUKKI POLSKA

SIMAX TKANINY

KOMO SERVICE

Solid, durable and effective solution in storage.

W.M. POMTOR is one of the first manufacturers of Manuracks in Poland.

We produce them since 1994, during this time we've gained big experience in production process and the ways of using our pallets.

Thus in 2009 we were the first ones to introduce improvements to the design of pallets which have been used so far.

This allowed to reduce their weight and also price while we kept the carrying capacity.

Our improved pallets did get certificates of TUV Rheinland and mark of product's quality T & M

Our company has ISO 9001 certificate also.

We are a partner whom you can fully trust.

made in
